Percent in Other Towns

(By United Press.)

Indianapolis, Ind., Aug. 25.—Tax
assessments were increased five to
one hundred percent on all lands
and lots and on improvements in
various townships and on personal
property by the state board of tax
commissioners, which completed its
work today.

This was the result of the work
during the past week in equalizing
assessments, which will be certified
to county auditors immediately.

It is believed that the increases
will add approximately \$800,000,000
to the total tax duplicate. Before
the equalization sessions the total
duplicate was \$5,000,000,000 and in
1918 the duplicate totaled \$2,213,-
00,000.

Regarding the equalization of
rush county assessments, the state
board's report says:

"An increase of 20 percent
on all land and lots and 20 per-
cent on all improvements in all
townships except incorporated
cities and towns; an increase of
25 percent on all lots and lands
and 25 percent on all improve-
ments in all incorporated cities
and towns; an increase of 30
percent on all personal property
in the city of Rushville; an
increase on all personal prop-
erty in all other cities and
towns of 60 percent."

In only one instance was the
rate reduced. In Carroll county it
was decreased five percent on all
lands and lots and on improvements
in all townships not including cities
and towns.

Gibson county will be ordered to
increase its assessments 100 percent
on all lots and lands and on all im-
provements, not including cities and
town in Columbia township.

Lake, Noble and Vigo counties
also have big increases.

Following are the final assessed
valuations after they have been re-
viewed by the state tax board:

Fayette county—An increase of
0 percent on all lots and lands and
0 percent on all improvements in
all cities and towns; an increase of
30 percent on all personal property
in all townships, cities and towns.

Shelby

"An increase of 5 percent on all
lands and lots and 5 percent on all
improvements in all townships, not
including incorporated cities and
towns; an increase of 30 percent on
all lots and lands and 30 percent
on all improvements in all incorpo-
rated cities and towns; an increase
of 40 percent on all personal prop-
erty in all townships and an in-
crease of 60 percent on all per-
sonal property in Shelbyville and
in all other cities and towns, mer-
chandise excepted.

Decatur

"An increase of 25 percent on all
lots and lands and 25 percent in all
cities and towns; an increase of 30
percent on all personal property in
all townships an increase of 50 per-
cent on all personal property in
personal property is ordered.

Hancock

"An increase of 5 percent on all
lots and lands and 5 percent on all
improvements in all townships, not
including incorporated cities and
towns; an increase of 30 percent on
all personal property in all townships,
cities and towns; an increase of 40
percent on all personal property in
Shelbyville and in all other cities
and towns, merchandise excepted.

Tax Increases Are Surprise To Many Here

Flat Raise of Small Percent on
Lands and Improvements Expect-
ed; Also on Personal Property in
Glenwood and Carthage and Two
Townships.

The report of the state tax board
on the equalization of Rush county
assessments, received by Will H.
McMillin, county auditor, this af-
ternoon, was not so much of a sur-
prise to taxing officials of the coun-
ty, as it will be to the taxpayers who
doubtless are not prepared for such
increases.

It should be remembered, of
course, that the increases do not
mean that more taxes will have to
be paid, but that the tax rate will
be lower. The intent of the law is
to appraise the property of the
whole state as near equally as pos-
sible and to have it on the tax du-
plicates at its true cash value. That
was the reason for giving the state
board the authority to raise or low-
er valuations so that they might
be equalized. In past years, some
counties have been assessed much
higher than others with equally as
good land and improvements.

County officials who are acquain-
ted with the situation in regard to
the new tax law, believed that farm
lands and improvements would be
raised of the appraisements of some
counties in this part of the state
would be lowered, because there
were some which were higher than
Rush county. It is not thought,
however, that they expected a flat
increase of twenty percent.

Neither were they prepared, it is
believed, for an increase of 25 per-
cent on all lots, lands and improve-
ments in the incorporated towns and
cities, which include Rushville,
Glenwood and Carthage. It will be
recalled that the county board of
review reassessed the lots, both
platted and unplatted, and improve-
ments, in Rushville, and many were
of the opinion that the board put
them too high.

It was not the opinion that per-
sonal property would be increased
as much as it was—30 percent in
the townships, 40 percent in Rush-
ville and 60 percent in Glenwood
and Carthage. County taxing officials
believed that personal property was
far too low in Carthage and Glen-
wood and in Union and Noble town-
ships.

TO RECOVER AUTOMOBILE

David A. Long Sues Charles Vohland
to Replevin Machine

David A. Long has filed a suit in
the circuit court against Charles
Vohland on a complaint in replevin
and demanding damages in the sum
of \$75. The complaint states that
Vohland purchased a 1916 Ford
touring car from him on June 17,
this year, for the sum of \$315, and
gave a note, in which four pay-
ments were to be made on the prin-
cipal. The complaint states that
the contract was not fulfilled, and
that there is \$175 now unpaid, and
that Mr. Long has made several at-
tempts to recover the machine. He
asks replevin and \$75 as damages
for failure to keep the contract.

POSTAL MEN TO GET MORE

Washington, Aug. 26.—Increased
wages for all postal employees will
be authorized by the house within
the next two weeks, Republican
leaders have decided.

EMBEZZLEMENT IS CHARGED

Affidavit Filed Against C. G. Vohland
by Fruit Tree Company

Charles G. Vohland was arrested
today by Sheriff Jones on an em-
bezzlement charge, preferred by
Prosecutor Stevens. He was re-
leased on a thousand dollar bond,
and his case will come up before
the September term of court. Ac-
cording to the affidavit, the prose-
cutor states, Vohland was the agent
for a shrubbery and fruit tree
company of Missouri, which has
caused the arrest to be made.

TO BREAK UP BAND OF CHICKEN THIEVES

Orange Township People Lose Heavily
During Summer—Robbers
Discovered at Willey Home

FOWLS ABANDONED ON ROAD

Residents of Orange township are
determined to break up a band of
chicken thieves who have stolen
scores of chickens this summer. Two
young men were discovered in the
act of stealing between two and
three dozen about dusk Saturday
evening, at the home of Mr. and
Mrs. Harley Willey, living six miles
south of Manilla and one mile west
of Gowdy, but were frightened away
by Mr. and Mrs. Claude Wagoner
and son, neighbors of Willey, and
abandoned the chickens. About a
dozen of them have been recovered.

Members of the Willey family
were away, but Mr. Wagoner saw
the thieves in the barn lot when he
passed on the road. He realized
they were up to mischief when they
ran into the barn, cranked up their
car hurriedly and drove away. It
was so near dusk that Mr. Wagoner
could not distinguish who they were
although he and others in the neigh-
borhood have a very good idea, they
say. Mrs. Wagoner and son, who
were walking along the road, each
carrying a rifle, passed the thieves,
but did not recognize them. They
each tried to fire on the two boys,
but the shells failed to explode. Mr.
Willey says he will not prosecute
the boys if they pay for the chick-
ens which were lost.

GOVERNMENT WILL OPEN RETAIL STORES

Socks, Underwear, Shirts. Rain-
coats, Blankets, Gloves, Tobacco
To be Sold to Consumer

CATALOGUE TO BE PREPARED

(By United Press.)

Washington, Aug. 26.—Retail
stores will be opened by the war
department September 25 to sell
directly to the consumer both over
the counter and by mail, commodi-
ties held as army surplus, it was
announced today.

Hugh quantities of socks, under-
wear, shirts, raincoats, blankets,
gloves, tobacco, soap and other ar-
ticles will be sold at these stores.

Stores will be opened at Jeffer-
sonville and other zone supply ci-
ties and also at other large cities
throughout the country.

The war department is expecting
to prepare a catalogue of goods to
be put on sale.

These will be made available at
every postoffice and postal sub-
station in the country.

EPIDEMIC NOT FEARED

Cincinnati, Aug. 26.—Recurrence
of influenza in epidemic form this
fall is unlikely, said William Peters,
health officer, of Cincinnati, taking
issue with Dr. Royal S. Copeland,
New York health commissioner.

NEW STRIKE VOTE IS ORDERED TODAY

Pres. Jewell of Railway Department
of A. F. L. Calls For Ballot
on Wilson Scheme.

4 CTS. MORE AN HOUR, OFFER

Government's Answer to Other Rail-
road Unions Will be Same as
Given Shopmen.

(By United Press.)

Washington, Aug. 26.—A new
strike vote of 500,000 railway shop-
men on President Wilson's proposi-
tion for wage increase of 4 cents an
hour, was ordered today by Presi-
dent Jewell of the railway employes'
department of the American Federa-
tion of Labor.

The government's answer to the
other railroad unions will be the
same as that given the shopmen.
Director General Hines clearly indi-
cated today in a letter to A. Whar-
ton, chairman of the board of rail-
road wages and working conditions.

Demands already before the rail-
road administration include requests
for 40 per cent increases for 187,-
000 trainmen and 35 per cent in-
creases for 52,000 conductors. Other
railroad brotherhoods are also ready
to submit demands.

Announcing that an increase of
4 cents an hour together with a ba-
sis of ten hours' pay for eight
hours' work would be granted the
men, President Wilson said in an
accompanying statement to the
shopmen and the country as a whole
that to meet the men's demands for
an increase of 17 cents an hour
from the present basic pay of 68
cents or 25 percent would make
necessary higher freight rates which
would add to the already high cost
of living and thus defeat the gov-
ernment's efforts to solve the most
important question before the coun-
try today—a return to normal price
levels.

The policy of deferring settlement
of increased wage demands pro-
nounced by the president affects not
only the railroad shopmen but also
the hundreds of thousands of other
railroad employees who have wage
demands pending before the direc-
tor-general or who are about to
present them. It is expected an ap-
proposals will be made.

TEACHERS INSTITUTE IS POSTPONED A WEEK

Will Be Held Saturday, Sept. 6, In-
stead of Next Friday as Pre-
viously Arranged.

SOME SCHOOLS OPEN SEPT. 1

(By United Press.)

County Superintendent of schools,
C. M. George has returned home
from a stay in Martinsville, and an-
nounced this morning that the pre-
liminary institute for the teachers
of Rush county has been postponed
from next Friday to the first Satur-
day in September, which will be Se-
ptember 6th. The institute will be
held in the court house.

Several of the county schools will
open Monday and the remainder, as
well as the Rushville city schools,
will open on the second Monday in
September. Mr. George stated this
morning that there were several va-
cancies in the county schools which
were not filled, but that by the op-
ening of the schools, a full list of
teachers will be secured.

Just what schools will open Mon-
day and those on the following Mon-
day will be announced as soon as
definite arrangements are made re-
garding the teachers, and the open-
ings will be published in time for
students to secure their books.

The September term of court will
start next Monday, September 1,
and the calendar had been very well
filled for the most of the month. The
jury commissioners have picked the
petit jurors and the grand jurors
for this term of court. No big cases
of any unusual importance are
scheduled and most of the cases are
for damages.

The grand jurors as selected by
the commissioners follow: Henry
G. Wilson, Rushville township; Har-
ry Gosnell, Orange township; J. N.
Northam, Jackson township; John
K. Stiers, Rushville township; Jesse
Siler, Ripley township and Samuel
Coehe, Center township.

The petit jurors as designated by
the jury commissioners are, John
Hungerford, Orange township; Wil-
son T. Dobbins, Jr., Washington
township; William Grocox, Orange
township; Robert A. Innis, Rushville
township; James N. Dearinger,
Walker township; Norman Apple,
Orange; John Logan, Rushville
township; Frank Simpson, Richland
and Homer Powell, Rushville town-
ship.

The calendar has been arranged
as follows:

Sept. 1—Calling dockets, Webb vs.
reserve loan, Bennett vs. Bennett.
Sept. 2—State vs. Ellerman; Gruell
vs. Guttman.

Sept. 3—State vs. Naden; Sulkey vs.

BLOW AT MEDDLING IN EUROPE'S AFFAIRS

Foreign Relations Committee
Amends Treaty to Exclude Am-
ericans From Committees

HITCHCOCK SEES PRESIDENT

(By United Press.)

Washington, Aug. 26.—As a blow
at American participation in Euro-
pean affairs, the senate foreign re-
lations committee today amended
the peace treaty to prevent Ameri-
can members being appointed to
more than a score of commissions
created to settle details of peace.

Today's action, though it con-
stituted in effect but one amend-
ment to the treaty, in fact involves
50 odd changes in the text.

The reparation commission was
specifically excluded from the
amendments. Senator Fall, New
Mexico, author of the series of
amendments adopted, pointed out
that this commission is to deal
with questions in which the United
States is directly interested.

Senator Hitchcock, adminis-
tration leader, who was summoned to-
day to a White House conference
by President Wilson, said he would
"bet a steamboat against a rotten
apple that the senate will knock
the committee's Shantung amend-
ment into a cocked hat."

COMMISSIONERS ANSWER CRITICS

Issue Statement Today Defending
Their Action in Ordering New
County Infirmary.

OLD BUILDING IS UNSAFE

Point to Report of Architect Saying
it Would be Waste of Money to
Remodel it

In reply to criticism of the action
of the county board of commission-
ers in ordering the construction of
a new county infirmary at a cost of
\$95,520, the board today issued a
statement defending its course.

The petition of the board for per-
mission to issue bonds to pay for the
construction of the building is now
pending before the state board of
tax commissioners.

The board points out that it would
be a waste of money to remodel the
old building, which is unsafe and
unsanitary, and that the state board
of charities and many county grand
juries have recommended a new
building in the following statement:

Inasmuch as there has been a
great deal of comment recently re-
garding the proposed new Rush
County Infirmary, some favorable
and some unfavorable, and the latter
having been given the greater pub-
licity we, the Commissioners of Rush
county desire to present the follow-
ing for the consideration of the pub-
lic and ask that the same relative
amount of space and equal publicity
be devoted thereto in your paper as
has been given the criticisms of the
proposed work.

In the first place, the present
county infirmary has been for 20
years and is now, a very unsanitary
and unsafe place. The institution
is well managed and no fault can be
found with the efforts put forth by
the superintendent to keep same in
as good condition as possible, but
no amount of effort can overcome
the difficulties. The buildings are
very old, poorly planned, have no
separation, are dangerous from the
standpoint of fire risk, contain no
equipment, are unsanitary and
therefore cannot be properly admin-
istered.

In addition to the foregoing there
is no provision for the isolation of
the contagious and dangerous dis-
eases and no means of caring for
these cases.

Secondly it has stated that the
building should be remodeled and
money saved thereby. This is best
answered by saying that some four
years ago this question was consid-
ered and an architect employed to
report on the feasibility of same.
His report showed that, and the
same can be readily seen by any lay-
man who is not versed in construc-
tion matters, it would be a waste of
money to attempt to remodel and
would involve a great outlay of
money and resulting in still having
an unsatisfactory plant.

The present buildings have been
the subject of condemnation by all
grand juries for the last twenty
years and by the State Board of
Charities as well as an excerpt of a
recent report under date of April 17th,
being submitted herewith and in sup-
port of the foregoing statements.
This board is composed of men and
women of the highest standing and
who have made the care of the
states dependents and all charities
a life long study. The excerpt of
the report follows:

"Summary. This is an old build-
ing. It was poorly planned in the
first place. From time to time addi-
tions have been built increasing the
difficulties in administration and
sanitation. The brick walls are
cracked and the brick decayed. The
entire cornice is beyond repair and
the roof is leaking in many places.
The light and ventilation are ex-
tremely bad."

Ever Get Bilious? Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous calomel and lashing your bowels with strong irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

Relief will come just as quickly and with it genuine, lasting benefit. There will be no griping, gnawing pains or doubling stomachache. Nature's Remedy (NR Tablets) work promptly and thoroughly, but the action is gentle, mild and soothing.

Relief comes through the action of Nature's Remedy on not only the liver, but on the whole digestive and eliminative system—the stomach, the bowels and even on the kidneys. Stored up accumulations of waste and body poisons that have been clogging the system are completely cleared out, the over-worked stomach is strengthened and the interrupted work of digestion and assimilation is resumed. The inactive liver goes to work with new vigor, the bowels are unobscured, the headache leaves, that dull "dope" or "want-to-crawl-down-a-hole" feeling disappears, energy,

"pop" and appetite return and you find yourself entirely, completely relieved.

There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day—more than five million boxes sold every year.

If you've not already done so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight. If your constipation is stubborn or persistent, continue to take one each night for a week or so.

Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day. After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember it is easier and cheaper to keep well than to get well. Just try it.

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

ceedingly poor. In winter the supply of natural gas is so poor that the gas lamps can not be used and kerosene lamps are necessary. These lamps and the use of stoves are dangerous and may result in a fire and loss of life. The plumbing and heating systems are so poor that in cold weather the water must be shut off thereby multiplying the problems of health and sanitation. Altogether, the building is so poorly planned, constructed and equipped that proper care of the inmates is not possible. A new modern building should be constructed. Since the county has no hospital it is recommended that a hospital department be built in connection with a new poor asylum.

The statement has been made that an operating and hospital section has been provided and elaborately equipped. We would refer the reader to the foregoing report as to the need of such a section and, regarding same, we would add that this division consists only of a small operating room, to serve minor operations on dirty cases which would not be welcome in the city, a bath room and convalescent room all directly over the dining room and under the same roof. The elaborate equipment for this division consists of a lavatory, bath tub, water closet and sink, these being provided in this section for isolation purposes.

"The Rate of Recovery"

That's From a Collier's Weekly Editorial.

"Trade is recovering. The list of articles (Feed and Food are the big items) in demand at the port of New York is impressive. The ends of the world are beginning to buy. Stability has been assured for the great movements of materials. Difficulties remain, but they are largely difficulties due to hunger, to high prices, to nervous relaxation after the war. And the cure for them, the last stage of our recovery, is the tonic of industry. We have good reason to have faith."

prices are not comparable to the low levels of building costs obtaining six or seven years ago any more than the cost of living can be compared to that period.

We then respectfully submit to the readers that our action was taken and the building proposed in the face of a very urgent need for the same; that the cost of the plant is consistent with the value received; that there are no indications whatsoever of lowering the building costs, but rather the opposite condition is predicted by all in a position to know, and lastly that Rush County, which performed its part so well in all war activities is certainly rich enough, generous enough and considerate enough to provide a safe, clean and comfortable place in which our unfortunates may claim the right to live decently in the days that remain to them.

NO LONGER WAITS ON COMPENSATION

Rehabilitation May Begin With Men Whose Disabilities Are Not Great

MUCH DELAY THUS AVOIDED

Washington, Aug. 26.—Since the amendment to the Vocational Rehabilitation Act was passed in July, compensability as a pre-requisite to vocational retraining has been eliminated in the case of disabled men unable to follow their old trade, and the Federal Board for Vocational Education has the power and the responsibility to determine the discharged soldier's right to the benefits of this law. This relieves the delay which formerly was unavoidable, in placing disabled men in courses of training.

Under the law a second class of men, those whose disabilities are not such as to prevent their return to their former occupation, or to take up a new one, but who desire a course for improvement in the old

Realizing Most From Crops.

Crops are big and prices are good and every farmer would like to know how to get the most out of his crop money. Juggling figures is a fascinating game anyhow. Even Mother Goose took a fling at it. You remember. "If all the seas were one sea, what a great sea that would be. You might cap this if you had happened to travel all one bright June day through Kansas wheat with, "If all the wheat fields were one field, what a great field that would be!"

Jacob Mohler, the secretary of Agriculture out in Kansas, likes to figure with the golden wheat crop of his state. He calculates that if Kansas grinds her 200,000,000 million bushels of wheat into flour and then makes one big baking, that she might invite all the world to breakfast and serve each person eight hot biscuits a piece. According to the latest figures, the secretary would have to cut that breakfast to six biscuits, but that is a big enough world breakfast to make Kansas swell with pride.

That is one way of figuring Kansas wheat. The farmers of the Sunflower State are figuring too. They always figure in thousands, whether it is bushels, acres or dollars—so many thousands for a new tractor, so many thousand for more land, and sometimes so many thousands to pay off the mortgage.

How many thousands of this year's crop money are being set aside for the education of the thousands of future farmers now scampering over wheat stubble or going down the cotton row? Let us figure awhile on turning wheat into education. There is no better investment today of farm profits, for the profitable farm of the future belongs to the farm engineer. The man trained to make machinery do his work will reap the profits and also secure the leisure that a good farmer deserves. Shorter hours and higher pay can be secured only through education of the highest type.

If the \$300,000,000, Kansas receives for her crop should be evenly divided it would mean nearly \$200 apiece for every man, woman and child in the state. But apportioning this to the Kansas babies, we can set aside one-half for expenses and still leave \$1500 for each Kansas child under five years of age. Investing this sum in September War Savings Stamps, it would yield an education fund of \$1785.71 by January, 1924. This amount reinvested at four per cent compound interest would give each youngster

a \$2700 college fund by September, 1934.

Unfortunately, however, every Kansas baby hasn't a wheat farmer for a father. So let us get down to the wheat farmer and see what he can do for the education fund. Taking Pawnee County, the 718 farmers of this county according to one statistician, averaged \$15000 on their wheat crop. Even allowing for a considerable cut, this is enough money to pay crop expenses, to set aside enough money for the education of each child in the family and still leave money in the bank for living expenses.

There is no more powerful figure on the horizon today than the wheat, cotton or tobacco farmer. He can do much to guarantee the continued prosperity of America and the future of his own children if he will only invest a part of his crop money in the making of farm engineers out of the little ones now toddling across his floor or going after the cows or helping with the dishes. Where will he find an investment that will yield more on 1919 crop money?

Some want government ownership of public utilities, some prefer private ownership, and yet another class do not know what they want. And in business conditions do not become more settled soon we may reach the point where nobody will have anything.

Our irrepressible friend Carranza is somewhat peaved because the U. S. government has forbidden the shipment of arms and munitions across the border. But, then, we all know His Whiskership. He was born peaved, has lived a life of peavishness, and will peave mightily when the devil assigns him to his allotted sphere in the hereafter.

Some of our fudsome millionaires have been letting off steam in the newspapers lately about not having purchased any new shoes for the past two years. But that, we suspect, is only another form of profiteering.

18 MONTHS OLD CHILD DIES

Lucille Elliott Expires at Robert Long Hospital in Indianapolis

Lucille Elliott, 18-months-old daughter of Mr. and Mrs. Robert Elliott, 603 West First street, died this morning about four o'clock at the Robert Long Hospital in Indianapolis. Mrs. Elliott and child were taken about a week ago to the hospital for treatment, and the child probably nursed a poisonous illness from its mother. Mrs. Elliott is in a serious condition and may not live. The body of the child was brought here this afternoon, and burial will be Thursday afternoon in East Hill cemetery, with funeral services at the residence at two o'clock.

Amusements

5th Episode Thursday.

Elmo Lincoln in the 5th episode of "Elmo The Mighty", will be at the Mystic Thursday. The title of the episode will be "The Phantom Rescue". There will also be a two-reel western thriller, "The Black Horse Bandit," in which Harry Harvey and Helen Gibson are starred. Lyons and Moran will appear on the same program in a comedy, "Waiting at the Church". Monroe Salisbury in a six reel special, "The Blinding Trail", is announced for Friday and "The Forfeit", featuring House Peters and Jane Miller, for Saturday.

Hart at the Princess

William S. Hart is at the Princess today in "Square Deal Sanderson" and the Bray Piograph will also be shown. Norma Talmadge is coming tomorrow in "The Way of a Woman" and on Thursday and Friday Elsie Ferguson will be seen in "The Society Exile" and Fatty Arbuckle will also appear in "A Desert Hero."

To be fair above all—to give the other fellow a chance, no matter what his character—is a code that obtains in the West today as it did long ago. In William S. Hart's new Artercraft picture, "Square Deal Sanderson," it is seen how a pursuer shoots a horsethief in the back. This so angers the watcher that he is almost gratified when the dying culprit manages to revenge himself by shooting his assailant.

This new picture will be found as thrilling as any in which the western star has ever appeared. There is a lovely girl—Ann Little plays the part—who owns a ranch in New Mexico. She is beset by scoundrels who are trying to get her property. She is rescued by the hero "Square Deal Sanderson," played by Bill Hart, and of course they fall in love.

There is hard riding, fighting and gun play aplenty. There is romance and the breeziness of the West are in every foot of film. It is a picture to see and see again and to remember because it is so graphic and withal so wholesome. The supporting company is of the highest grade.

Richard Carle in "Sunshine."

Direct from a three months' run in Chicago, the Shubert Murat theatre will offer to its patrons Richard Carle in "Sunshine," a musical comedy, all state fair week, commencing next Monday (Labor Day) matinee; also matinees on Wednesday and Saturday. Alexander Johnstone's merry musical comedy, "Sunshine" has won deserved popularity, both for the music written by Mr. Johnstone, composer also of "Fiddlers Three" and many other musical successes, and libretto, arranged by William Carey Duncan, with "colloquialisms" by that unique comedian Richard Carle.

The scenes of the play are laid in Southern Spain. The plot of "Sunshine" has a real plot—tells of the adventures of an American motion picture scenario-writer, his wife, a former Winter Garden beauty, and an American life insurance agent, who meet in Spain and become entangled with Andalusian smugglers, matadors, dancers and charming senoritas. During the evolving of the story, mirth-provoking situations in abundance occur, as well as several delightful love interests.

The company which will be seen in "Sunshine" is in all ways an exceptionally fine one. It is headed by Richard Carle, who is seen at his best as the American insurance man, Richard Skinner. In support of Mr. Carle are such musical comedy favorites as Marjory Owen, Betty Booth, David Quixano, Leona Stater, Harry Kennet, John J. Ward, Milton Dawson, Philip McDermot and the Murdock Brothers, a trio of wonderful young dancers who set all Chicago agog by their skill and originality. Nearly every principal in the company is possessed of either remarkable vocal or dancing ability.

The music of "Sunshine" is exceptionally lovely, some of the most popular songs being "Love is Like This Little Wheel of Mine," "Something Nice in Lingerie," "Home Again, Home Again," "I Like to Look Around a Little," "Treat 'Em Rough," and "The Land of Make-Believe."

Pigs Get Worms Very Young

The time to commence feeding Acme Worm Bouncer is from the time they are old enough to eat. Feed from birth to maturity. It will only take a few cents worth to do it, and as "an ounce of prevention is worth a pound of cure," it certainly pays to start the pig off right, and if you do so you can keep him right. Worms are persistent pests and they must be fought continuously. There is more money in keeping your pigs free of worms than to let them get worms and then expel them.

Big Five Chicago Packers Possess Majority of Cars Suitable For Shipment of Fresh Meat

TRADE COMMISSION REPORT

Recommends That Private Car Lines be Operated on Equal Terms to All Shippers

Washington, Aug. 26.—Ascribing to private car lines a position as one of the principal factors in the concentration of control of the American meat industry, and showing that the Big Five Chicago packers own more than 90 per cent of the equipment suitable for shipment of fresh beef and carcass meats, the Federal Trade Commission today made public a special "Private Car Line Report" to the President. It recommends as a remedy that all cars used for the transportation of meat animals and all refrigerator cars and equipment be operated on equal terms to all shippers.

"The most important types of private cars considered," says the Commission's letter of transmittal to the President, "are the brine tank refrigerator car equipped for the transportation of dressed meat carcasses, and the ventilator refrigerator car suitable for packing house products and for vegetables and fruits. The three principal classes of owners are the packers, the railroads, and private car companies leasing their equipment to shippers and railroads.

The complete report will be ready for distribution within two weeks.

"The refrigerator car made practicable a more extensive and economical use of food products. For fruits and vegetables it encouraged the development of production in regions especially fitted therefor by soil, climate and season of growth. In the meat industry it facilitated the concentration of slaughter by making practicable the long-distance shipment of fresh meat, in place of the shipment of live cattle to the localities of consumption. It has also tended to the entrenchment of the local slaughter of meat animals.

"The present country-wide system of distribution by the five big packers through their branch houses and peddler car routes is built around the principle of refrigeration and has grown up, historically, from their control of refrigerator car lines in conjunction with the various pools and combinations maintained almost continuously for more than 35 years.

"Extensive ownership of brine tank refrigerator cars by the five big packers is a principal factor in their control of the meat industry. On December 31, 1917, they owned 15,454 brine tank cars, adapted to the shipment of fresh beef and carcass meats, which is over 90 per cent of the total equipment of this type of car. Their ownership, until recently, of accessory facilities such as icing stations and platforms located advantageously in trunk line territory, strengthened their control over the industry.

"In turn, the volume of traffic of the five packers has enabled them to secure from the railroads advantages over competing shippers. Formerly in the shape of direct rebates, these advantages are now usually in expedited service to the big packer cars; in favorable mixing rules which include all their diversified products and even many articles not related to the packing industry; by allowances paid to some of the big packers by carriers for the performance of a part of the transportation service; by favorable arrangements and lease of stockyards by the railroads to some of the big packers; and by the sale to the railroads of bumping posts manufactured by a subsidiary of one of the Big Five packers."

The New Aeolian Vocalion Over All Other Phonographs?

In the first place, the new Vocalion is the only Musical Instrument of the Phonograph Type that plays (successfully) all makes of records with the same Reproducer and with the same needle.

You have, no doubt, had people tell you that it was impossible for any Phonograph to play all makes of records with the same needle.

MAKE US PROVE THAT THE NEW VOCALION DOES IT

Make us prove to your entire satisfaction that the New Vocalion—not only plays all records with the same needle, but that it plays them better than the machines for which they are made.

Make us prove that the New Vocalion Automatic Stop — actually stops all makes and all sizes of records perfectly.

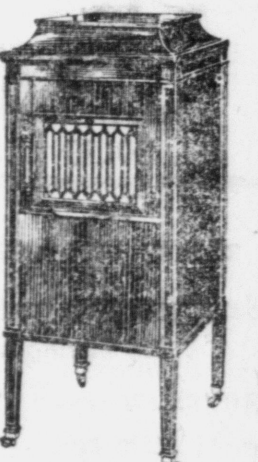

Come in and have us play your favorite record—no difference what make it may be—Vocalion, Columbia Victor, Pathe or Edison—we will play them for you on the New Vocalion with the same reproducer and with the same needle (and with far better Tone Quality) eliminating sixty per cent of the surface noise so commonly heard on the ordinary phonograph.

We invite you to come and hear it—play it yourself—have us show you the New Vocalion automatic stop—the one automatic stop that stops all makes of records perfectly. This stop is not simply a safety device, but a real automatic stop.

16 COUNTIES ENTER STATE FAIR CONTEST

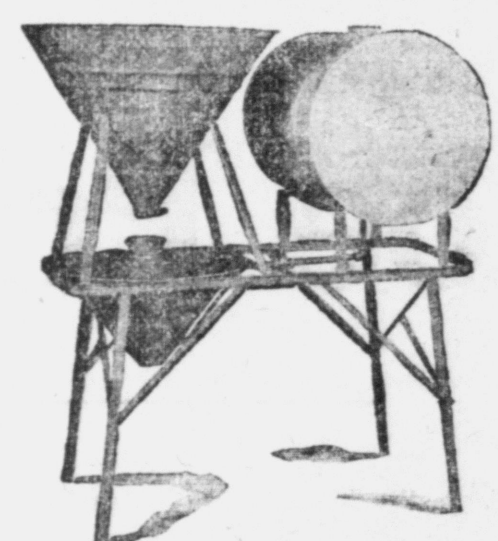

Home Demonstration Contests Will Be Staged by Boys' and Girls' Clubs of Counties

IN CHARGE OF MISS KING

Lafayette, Ind., Aug. 26.—Sixteen counties will be represented by teams in a home demonstration contest to be conducted at the State Fair by the Boys' and Girls' Club Division of the Agricultural Extension Department of Purdue University. Miss Grace King of the Purdue Club staff will be in charge of the contest.

The counties which are to send teams are White, Sullivan, Vigo, Union, Decatur, Whitley, Hendricks, Parke, Tipton, Morgan, Vanderburg, Bartholomew, Putnam, Madison, Montgomery and Fountain. Each team will be composed of three girls who are to be chosen by means of an elimination contest to be conducted in each of these counties previous to the State Fair. Each of the teams will give a demonstration at the Fair in canning, sewing and baking. The judging of the work and the selecting of the winner is to be done by a committee of three which will be announced later.

The demonstrations will be conducted each day of the Fair in the Oliver Building. An appropriate banner will be presented to the winning team by the club department of Purdue.

"It goes without saying," the president's statement said, "that if our efforts to bring the cost of living down should fail, it will be, of course, necessary to accept the higher costs as a permanent basis of adjustment, and railway wages should be adjusted along with the rest."

Recommendations to the president from Director General Hines as to the amount of increase to be given, made public with the president's statement, showed that pay increases already received by thousands of shopmen from July 1, 1915 to August 1, 1919, were in excess of the increase in the cost of living during that period, these increases being obtained by higher classification under standardization of employment.

Mr. Hines said the wages of railroad shopmen were not properly comparable with those paid for similar work in shipyards because the shipyard work was of a temporary nature and also because the workmen in the latter case were generally faced with higher living costs prevailing in congested districts while the railroad shopmen as a rule have the advantage of small or semi-rural communities.

Shoe Prices

WE FEEL that in justice to our patrons it is our duty to keep them informed regarding the condition of the shoe market, particularly at this, the most trying time in our twenty-five years of experience. Shoe prices are advancing by leaps and by bounds.

Fortunately we have a good supply of SHOES, purchased at less than today's wholesale prices. But when these shoes are replaced on our

shelves many will cost more than today's retail prices. Our advice to you is to BUY YOUR FALL AND WINTER SHOES EARLY.

Buy all you need, but no more. We do not intend to profiteer. We deplore present prices just as much as you do. They will go higher before they go lower.

So AGAIN we urge you to BUY YOUR ACTUAL REQUIREMENTS AS EARLY AS POSSIBLE.

CUT THE HIGH COST OF LIVING By baking your own bread from CLARK'S PURITY FLOUR

One barrel of 196 pounds will make 283 loaves of bread, which at 10c each would amount to \$28.30. CLARK'S PURITY FLOUR retails at \$13.60 per barrel, then the housewife who bakes her bread will save \$14.70 per barrel, less the seasoning and fuel for baking; hence a long step in the direction of reducing the high cost of living would be accomplished.

INDIGESTION Caused by Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food repeating, sour, gassy stomach. There are many ailments which, while they do not cause much distress in the stomach itself, are, nevertheless, traceable to an acid stomach. Among these are nervousness, biliousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year.

The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.

One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pain in my bowels disappeared. EATONIC is just the remedy I needed."

We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big 50c box from him today. He will refund your money if you are not satisfied.

ASKS HOME LIFE FOR GERMAN WOMEN

Women Ought to be Taken Out of
Labor Market is the Belief of
Frau Von Bierke

SHOULD NOT BE IN CABINET

Believes Womankind Should be
Brought Back to Natural Des-
tiny of Motherhood

By JOHN GRAUDENZ
(U. P. Staff Correspondent.)

Berlin (By Mail).—"Women ought to be taken out of the labor market just as much as possible."

This is the opinion of Frau von Gierke of the German national party one of the women members of the national assembly, chosen after the last winter's revolution. In an interview she declared she believed women ought to take more and more part in internal politics, but decried any attempt to have them in high government places. She said that they ought to be in the home rather than the factory or the office; and that where circumstances positively will not permit them to have home life, then they ought to be trained for the professions.

"I don't believe women should be in cabinet positions," she said. "That would only make the cabinet feminine and weaker, and what is needed is strong manly forcefulness in positions such as the cabinet posts."

"However, in internal politics, it is different. There, woman acts as a balancing spirit, and takes a fine, wholesome interest in welfare work. Women's inclinations in politics are likely to be more positive than men's for women are generally either entirely conservative or entirely radical."

"As for woman's part in labor, I will say that I believe womankind should be brought back to its natural destiny of motherhood and education of children. It is extremely unfortunate that women have become more and more the competitors of men in the labor market, for labor amongst women is the enemy of family life. It is impossible to be a workingwoman and a mother at the same time."

"In my view, industrial conditions ought to be so readjusted that men will have better opportunities for marrying and for supporting families. Then it will be possible for more women to enter their natural sphere of family life. As for women unable to marry, more opportunities should be opened for their education for professional lines."

Frau von Gierke, as a conservative, does not believe in "equalizing everything," as she put it. She believes that the German educational system is adequate, but holds that the "Kultur" that comes of family life and training ought to be developed.

WATSON SUGGESTS SURVEY OF WOOD

Senator Introduces a Resolution
Which Would Investigate the Supply of Pulp Wood in U. S.

ASKS AN APPROPRIATION

Country Almost Dependent Upon
Foreign Countries, But There Are
Many Virgin Fields Here.

Washington, Aug. 26.—As a step toward conserving the decreasing supply of American pulp wood used in the manufacture of newsprint paper, Senator Watson, republican, Indiana, today introduced a resolution authorizing the secretary of agriculture to make a survey and preliminary investigation of the nations available. Pulp wood timber supply. The secretary also would be directed to make recommendations for the pulp wood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

Two-thirds of the newsprint paper used by American newspapers, Senator Watson said, in introducing the resolution, "is imported or is manufactured from wood or pulp imported from Canada. One-third is made in the United States from wood grown in the United States. The former proportion is steadily increasing; the latter is steadily decreasing."

"Nearly all of the American newsprint manufacturing is located in the northeastern states, half of it in New York," the senator continued, "but in the Pacific Northwest, Washington, Oregon and part of California, and the inland empire of northwestern Montana and northern Idaho are great forests that have no more than been touched by the few pulp mills in that section of the country."

The senator told the Senate that in Alaska are enormous areas of forests the annual growth of which would supply pulp for half of the newsprint paper used in the United States, but no pulp mills are there.

Senator Watson warned that American newspapers are being more and more dependent upon foreign sources for the raw material from which newsprint paper is made; the raw material is being exhausted in the section where the domestic industry is concentrated and mills are moving from this country to Canada.

At the time the United States contains forest resources in the Northwest and in Alaska that promise

KEEP COMMUNITY SERVICE GOING

State Chairman of the War Camp Community Service Would Carry It on During Peace

WILL AID IN PUBLIC SPIRIT

Activities Will Make Towns and Cities Better For Anyone to Live. In. He Says

Indianapolis, Ind., Aug. 26—Hugh McK. Landon of Indianapolis, state chairman of War Camp Community Service has announced the organization of Community Service, Inc., to carry on in peace times in civil life the work of establishing morale through the wise employment of leisure time, Mr. Landon has recently returned from New York where he conferred with national leaders who believe with the late Theodore Roosevelt that "this country will not be a good place for any of us to live in unless we make it a good place for all of us to live in."

"Community Service, Inc. will not as an organization establish itself in all industrial centers of Indiana," said Mr. Landon yesterday. "It will furnish to localities trained investigators and workers who will survey conditions and report possibilities in the way of recreational activities. Out of the splendid work of War Camp Community Service has been developed men and women of unusual vision in welfare work."

"In the 40 cities of the United States where Community Service already has aided in establishing community spirit or is now directing it, these specially trained leaders have invariably discovered the willingness of the community spirit for expression, once the way is charted. As communities, we are much like the little girl in the elementary drawing class, the members of which were asked to draw on the black board what they wanted to do when they grew up. The space allotted to her remained blank when the other children finished and when questioned by the teacher as to the cause for her tardiness, she replied: 'I know what I want to do. I want to get married but I don't know how to draw it.'"

"All of us want to have a share in the community life. Since the mobilization of our young men, there has been a broader conception of the obligations of citizenship and of participation in affairs in the immediate community, the state and the nation."

"The plan of providing social and recreational centers will include all those activities necessary to a complete social and civic life. Community Service, Inc. aims to so employ leisure time that there will be more frequent contact between all of the peoples who make up a community and the development of a oneness of purpose. It has been aptly written that Community Service, 'seeks to pool the common sense and judgment of the community for the common good.'"

Surveys will be made in Indiana cities to determine their needs and to ascertain contribution of the proper use of leisure time made by public agencies, quasi-public agencies, private agencies, business enterprises, commercial recreations, anti-social agencies and in the homes. Particular effort will be made to develop Americanization work where there are groups of foreign-born peoples and adequate programs devised to identify these aliens with the spirit and the ideals of their adopted country.

New Chemical Kills Bed Bugs P. D. Q.

The new golden colored chemical Peaky Devils Quicker, P. D. Q., can now be had at any drug store, as arrangements have been made whereby the retailer can get it from his wholesaler.

The new chemical, P. D. Q., is very powerful. A couple of ounces can be procured for a few cents and you'll have enough to kill a million bed bugs if you could get that many together. P. D. Q. does not rot or burn the springs or clothing. It leaves a coating on their eggs and prevents hatching.

P. D. Q. if properly used, kills the house entirely of the bed bugs, ants, roaches and fleas. Safe to use in your pet dog's den. A patent snout free in every package of P. D. Q. enabling you to get the pesky insects in the hard-to-get-at places.

Declared War on Diamond Match Company of America and Wish to Carry It Into Other Fields

PUT IN NEW MODEL FACTORY

London. (By Mail).—War has been declared on the Diamond Match Company of America by a powerful combination of British match manufacturers who hope not only to oust foreign matches from the British market, but to carry the war into other fields.

The syndicate, which is to be known as Macquire, Paterson and Palmer, Limited, has the backing of the great engineering and armament firm of Vickers, and in addition to roping in the three leading match-making firms, Macquire, Millers, Patersons and Palmers, as well as numerous small fry, it has secured the co-operation of the principal cardboard-box makers.

Sir Alexander H. Macquire, chairman of the new British concern declared that when President Ohio C. Barber of the Diamond Company forced Bryant and May's—till then England's leading match manufacturers—into the combine by threatening to put them out of business by reason of the superior machinery possessed by the Diamond and other American factories, he had all the cards, as no German machinery could be imported during the war, and America would not sell her patent machines.

Now, however, German patents have lapsed, and the Britishers have grabbed and improved upon the best German machines. The Vickers Company is taking charge of the machinery and is putting into a spacious new model factory, just outside Liverpool, the most up-to-date matchmaking machinery possessed by any concern, while J. Lever Tillotson, of the big Liverpool cardboard-box making firm, who has joined the directorate, is looking after that part of the business.

WAR BASE DEMOBILIZED

Rouen, 5 Years British Post, is Being Abandoned.

Rouen, France. (By Mail)—Rouen has been demobilized by the British, and the historic old Normandy capital, camouflaged for five years as "Army Post Office No. 2", and the British advanced base throughout the war, has been abandoned to the French. Only about 1,500 British troops, mostly Indians, remain to guard and supervise the removal of the last of the vast British army stores and German prisoners. Rouen for nearly five years has never had less than fifty thousand British troops quartered in the vicinity. It was the Record Office headquarters, or "Third Echelon", as it was known to the B. E. F. British army huts are being auctioned, and snapped up eagerly, and in a few weeks only the British cemetery will be left to remind the citizens of the great British war base.

PARIS—The famous Enghien Casino is threatened by the bill now before Parliament prohibiting gaming establishments within a radius of 60 miles of Paris.

Fruit Combinations Tasty When Canned

U S DEPARTMENT OF AGRICULTURE

When two or three fruits are combined for "putting up" the result is a product with an entirely different flavor which adds variety to the menu. Certain fruit flavors blend together better than do others. The following combinations are recommended by United States Department of Agriculture specialists.

Apples and quinces: white currants and gooseberries; apples and black currants; rhubarb and quinces; green gage plums and lemons; grapefruit and oranges; tangerines and oranges; grapefruit, red currants and raspberries; raspberries and cherries; plums and apricots; oranges and rhubarb with strawberry juice.

When small fruits are used in the preparation, they are left whole. Larger variety fruits are cut into small pieces. Raisins or nuts or sometimes both may be added to fruit combinations. They add a desirable flavor and increase the food value of the product. In preparation,

tin, enamel or agateware vessels should be used.

To serve as a fruit cocktail, salad or dessert, the following fruit combinations are excellent: Green gage plums, pears and gooseberries; pineapples, kumquats and figs; peaches, pears and cherries. The jar is packed with the preferred combination, a sirup of desired proportion is added and the jar and its contents boiled for 30 minutes in hot-water bath canner.

The following combination are preserves which are used as condiments or as a spread for sandwiches. They have been tested and found desirable.

Plum Conserve

4 pounds of plums 2 oranges
3 pounds of sugar 1 pound raisins
1 pound shelled nuts.

Remove the seeds and chop the plums. Peel the oranges and slice thinly one-half of the peel. Mix the chopped plums, orange pulp, sliced orange peel, sugar and raisins, and cook altogether rapidly until

thick as jam. Add the nuts 5 minutes before removing from the fire. Pack hot into sterilized jars, seal, and boil (process) in hot-water bath for 10 to 15 minutes for half-pint jars and 30 minutes for pints.

Grape Conserve

3 pounds grapes. 2 large oranges
1 pound sugar 1/2 pound finely ground raisins.

Take sound, ripe grapes, weigh and pulp them. Separate the pulp from the skins and heat the pulp and juice until the pulp breaks down enough to liberate the seeds. Remove seeds by passing through a colander. Grind the skins, add one-half pint water for each 6 pounds of fresh fruit, and cook until quite tender. Mix skins and pulp together and add for every 3 pounds of fresh fruit 1 scant pound of sugar, one-half pound of finely ground raisins, the pulp of two oranges, and one-fifth of the ground peel of one orange. Cook the mixture approximately 1 hour in an oven or over a slow fire, until thick as jam. Then stir into the mixture 1/2 pound of ground pecan-nut meats. After allowing it to boil again for about 5 minutes, remove from the fire, pack hot into freshly sterilized half-pint jars and seal at once. Pint jars may be used if desired. Boil (process) the half-pint jars for 15 minutes in hot-water bath and the pint-size jars for 30 minutes.

Fig Conserve

2 pounds of fresh figs or 1 quart of plain canned figs; 1 orange; 1 1/2 pounds of sugar; 1/2 cup of pecans (shelled); 1/2 pound of raisins.

Cut all, except nuts, into small pieces and cook until thick and transparent (about one hour.) Add nuts five minutes before removing from stove. Pack and seal hot. Process as for plum conserve.

Medley Fruit Conserve

2 pounds peaches 1 pound apples
1 1/2 pounds quinces 3 lemons
1 1/2 pounds pears. Sugar.

Wash, peel, and core or stone the fruit. Pass through a food chopper and weigh. For each pound of fruit allow three-quarters pound of sugar. Put fruit and sugar in alternate layers in a bowl and let stand over night. Place the fruit, the pulp of the lemons, and one-half the rind of the lemons, sliced thin, into the preserving kettle, and boil until the mixture is thick as jam. One cup of scalded, chopped nuts may be added, if desired, 5 minutes before removing from the fire. Pack hot into hot sterilized jars and seal at once. Boil (process) half-pint jars in hot-water bath for 15 minutes and pint jars for 30 minutes.

BARN HIT BY LIGHTNING

The barn owned by Frank Niles at Charlottesville, was struck by lightning during the storm Sunday evening and was entirely destroyed with most of the contents, including seven head of shoats and a quantity of hay with some farming implements. The threshing outfit which was in the building, was saved.

Don't Burn Good Fuel in a Poor Stove.

TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEP-SINCO.

Ask your druggist—he sells and recommends Pepsinco.

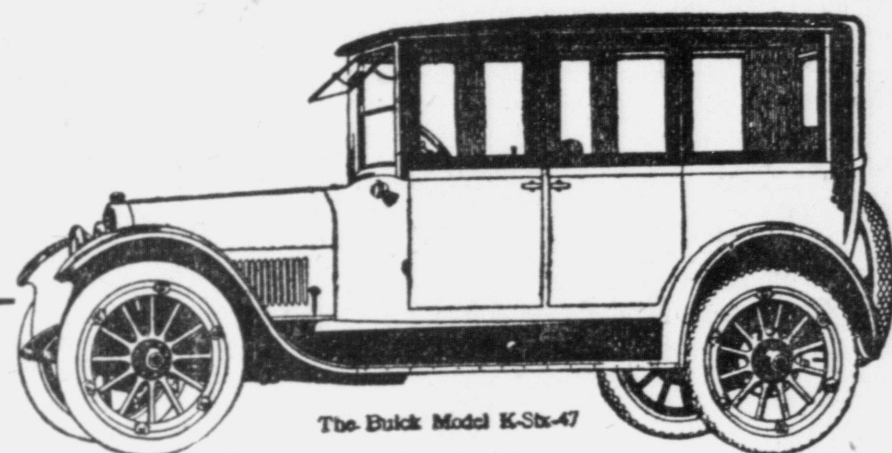

1920 Model K-47

Buick Touring Sedan

THE BUICK Model K-Six-47 body is of new design, low in appearance but with ample head room. Top, window casings and sashes are fully covered with metal, giving perfect uniformity in finish and durability. All doors are properly hinged and fitted with double latches. The front seat extends across the body and there is a new-design, tilting steering wheel. The low seats give riding comfort.

The interior is finished in handsome fabric, without bindings, with deep upholstery. Cold weather snugness or summer driving comfort are equally available by adjusting the three-piece windshield and windows.

The tonneau carpet matches the upholstery. The standard Buick instrument board furnishes every driving convenience and a dome light in the ceiling illuminates the interior. The cowl carries two handsome side lamps.

SPEECHES BY LEADING MEN.

Washington, Aug. 26.—Phonographs are now actively engaged in politics.

Announcement has been made by the Democratic national committee that thousands of phonographs in the United States are to be mobilized by the Committee, to educate the public along political lines and to help win votes to the democratic cause during the next presidential campaign.

It is proposed to have speeches, by leading members of the national administration and other distinguished democrats, reproduced on phonographic records and disseminated for use in political gatherings and in private homes. These "talks" will be upon important public issues and of five minutes duration.

One record containing a short speech by Chairman Homer S. Cummings, has already been distributed, and another, by Attorney General Palmer, it was stated, will be ready by September 1.

President Wilson, Vice-President Marshall, Secretary of War Baker, Secretary of the Navy Daniels, Champ Clark, William G. McAdoo, James Hamilton Lewis and William J. Bryan, are among others who are expected to address their countrymen through the medium of these records, the committee said.

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly. That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

(By United Press.)

Indianapolis, Ind., Aug. 25.—Tax assessments were increased five to ten percent on all lands and improvements in various townships and on personal property by the state board of tax commissioners, which completed its work today.

This was the result of the work during the past week in equalizing assessments which will be certified by county auditors immediately.

It is believed that the increases will add approximately \$800,000,000 to the total tax duplicate. Before the equalization sessions the total duplicate was \$5,000,000,000 and in 1918 the duplicate totaled \$2,213,000,000.

Regarding the equalization of rush county assessments, the state board's report says:

"An increase of 20 percent on all land and lots and 20 percent on all improvements in all townships except incorporated cities and towns; an increase of 25 percent on all lots and lands and 25 percent on all improvements in all incorporated cities and towns; an increase of 30 percent on all personal property in the city of Rushville; an increase on all personal property in all other cities and towns of 60 percent."

In only one instance was the rate reduced. In Carroll county it has decreased five percent on all lands and lots and on improvements in all townships not including cities and towns.

Gibson county will be ordered to increase its assessments 100 percent on all lots and lands and on all improvements, not including cities and towns in Columbia township.

Lake, Noble and Vigo counties also have big increases.

Following are the final assessed valuations after they have been reviewed by the state tax board:

Fayette county—An increase of 10 percent on all lots and lands and 10 percent on all improvements in all cities and towns; an increase of 10 percent on all personal property in all townships, cities and towns.

Shelby
"An increase of 5 percent on all lands and lots and 5 percent on all improvements in all townships, not including incorporated cities and towns; an increase of 30 percent on all lots and lands and 30 percent on all improvements in all incorporated cities and towns; an increase of 40 percent on all personal property in all townships and an increase of 60 percent on all personal property in Shelbyville and in all other cities and towns, merchandise excepted.

Decatur
"An increase of 25 percent on all lots and lands and 25 percent in all cities and towns; an increase of 30 percent on all personal property in all townships an increase of 50 percent on all personal property in personal property is ordered.

Hancock
"An increase of 5 percent on all lots and lands and 5 percent on all improvements in all townships, not including incorporated cities and towns; an increase of 30 percent on all personal property in all townships and an increase of 60 percent on all personal property in personal property is ordered.

Tax Increases Are Surprise To Many Here

Flat Raise of Small Percent on
Lands and Improvements Expected;
Also on Personal Property in
Glenwood and Carthage and Two
Townships.

The report of the state tax board on the equalization of Rush county assessments, received by Will H. McMillin, county auditor, this afternoon, was not so much of a surprise to taxing officials of the county, as it will be to the taxpayers who doubtless are not prepared for such increases.

It should be remembered, of course, that the increases do not mean that more taxes will have to be paid, but that the tax rate will be lower. The intent of the law is to appraise the property of the whole state as near equally as possible and to have it on the tax duplicate at its true cash value. That was the reason for giving the state board the authority to raise or lower valuations so that they might be equalized. In past years, some counties have been assessed much higher than others with equally as good land and improvements.

County officials who are acquainted with the situation in regard to the new tax law, believed that farm lands and improvements would be raised of the appraisements of some counties in this part of the state would be lowered, because there were some which were higher than Rush county. It is not thought, however, that they expected a flat increase of twenty percent.

Neither were they prepared, it is believed, for an increase of 25 percent on all lots, lands and improvements in the incorporated towns and cities, which include Rushville, Glenwood and Carthage. It will be recalled that the county board of review reassessed the lots, both platted and unplatted, and improvements, in Rushville, and many were of the opinion that the board put them too high.

It was not the opinion that personal property would be increased as much as it was—30 percent in the townships, 40 percent in Rushville and 60 percent in Glenwood and Carthage. County taxing officials believed that personal property was far too low in Carthage and Glenwood and in Union and Noble townships.

TO RECOVER AUTOMOBILE

David A. Long Sues Charles Vohland
to Replevin Machine

David A. Long has filed a suit in the circuit court against Charles Vohland on a complaint in replevin and demanding damages in the sum of \$75. The complaint states that Vohland purchased a 1916 Ford touring car from him on June 17, this year, for the sum of \$315, and gave a note, in which four payments were to be made on the principal. The complaint states that the contract was not fulfilled, and that there is \$175 now unpaid, and that Mr. Long has made several attempts to recover the machine. He asks replevin and \$75 as damages for failure to keep the contract.

Charles G. Vohland was arrested today by Sheriff Jones on an embezzlement charge, preferred by Prosecutor Stevens. He was released on a thousand dollar bond, and his case will come up before the September term of court. According to the affidavit, the prosecutor states, Vohland was the agent for a shrubbery and fruit tree company of Missouri, which has caused the arrest to be made.

TO BREAK UP BAND OF CHICKEN THIEVES

Orange Township People Lose Heavily
During Summer—Robbers
Discovered at Willey Home

FOWLS ABANDONED ON ROAD

Residents of Orange township are determined to break up a band of chicken thieves who have stolen scores of chickens this summer. Two young men were discovered in the act of stealing between two and three dozen about dusk Saturday evening, at the home of Mr. and Mrs. Harley Willey, living six miles south of Manilla and one mile west of Gowdy, but were frightened away by Mr. and Mrs. Claude Wagoner and son, neighbors of Willey, and abandoned the chickens. About a dozen of them have been recovered.

Members of the Willey family were away, but Mr. Wagoner saw the thieves in the barn lot when he passed on the road. He realized they were up to mischief when they ran into the barn, cranked up their car hurriedly and drove away. It was so near dusk that Mr. Wagoner could not distinguish who they were although he and others in the neighborhood have a very good idea, they say. Mrs. Wagoner and son, who were walking along the road, each carrying a rifle, passed the thieves, but did not recognize them. They each tried to fire on the two boys, but the shells failed to explode. Mr. Willey says he will not prosecute the boys if they pay for the chickens which were lost.

GOVERNMENT WILL OPEN RETAIL STORES

To be Sold to Consumer

CATALOGUE TO BE PREPARED

(By United Press.)

Washington, Aug. 26.—Retail stores will be opened by the war department September 25 to sell directly to the consumer both over the counter and by mail, commodities held as army surplus, it was announced today.

Hugh quantities of socks, underwear, shirts, raincoats, blankets, gloves, tobacco, soap and other articles will be sold at these stores.

Stores will be opened at Jeffersonville and other zone supply cities and also at other large cities throughout the country.

The war department is expecting to prepare a catalogue of goods to be put on sale.

These will be made available at every postoffice and postal substation in the country.

NEW STRIKE VOTE IS ORDERED TODAY

Pres. Jewell of Railway Department
of A. F. L. Calls For Ballot
on Wilson Scheme.

4 CTS. MORE AN HOUR, OFFER

Government's Answer to Other Railroad Unions Will be Same as Given Shopmen.

(By United Press.)

Washington, Aug. 26.—A new strike vote of 500,000 railway shopmen on President Wilson's proposition for wage increase of 4 cents an hour, was ordered today by President Jewell of the railway employees' department of the American Federation of Labor.

The government's answer to the other railroad unions will be the same as that given the shopmen. Director General Hines clearly indicated today in a letter to A. Wharton, chairman of the board of railroad wages and working conditions.

Demands already before the railroad administration include requests for 40 per cent increases for 187,000 trainmen and 35 per cent increases for 52,000 conductors. Other railroad brotherhoods are also ready to submit demands.

Announcing that an increase of 4 cents an hour together with a basis of ten hours' pay for eight hours' work would be granted the men, President Wilson said in an accompanying statement to the shopmen and the country as a whole that to meet the men's demands for an increase of 17 cents an hour from the present basic pay of 68 cents or 25 percent would make necessary higher freight rates which would add to the already high cost of living and thus defeat the government's efforts to solve the most important question before the country today—a return to normal price levels.

The policy of deferring settlement of increased wage demands pronounced by the president affects not only the railroad shopmen but also the hundreds of thousands of other railroad employees who have wage demands pending before the director-general or who are about to present them. It is expected an ap-

TEACHERS INSTITUTE IS POSTPONED A WEEK

Will Be Held Saturday, Sept. 6, Instead of Next Friday as Previously Arranged.

SOME SCHOOLS OPEN SEPT. 1

County Superintendent of schools, C. M. George has returned home from a stay in Martinsville, and announced this morning that the preliminary institute for the teachers of Rush county has been postponed from next Friday to the first Saturday in September, which will be September 6th. The institute will be held in the court house.

Several of the county schools will open Monday and the remainder, as well as the Rushville city schools, will open on the second Monday in September. Mr. George stated this morning that there were several vacancies in the county schools which were not filled, but that by the opening of the schools, a full list of teachers will be secured.

Just what schools will open Monday and those on the following Monday will be announced as soon as definite arrangements are made regarding the teachers, and the openings will be published in time for students to secure their books.

COURT WILL OPEN MONDAY, SEPT. 1

TWO JURIES ARE SELECTED

Jury Commissioners Draw Names of Men Who Will Act as Petit and Grand Jurors For Term

(By United Press.)

The September term of court will start next Monday, September 1, and the calendar had been very well filled for the most of the month. The jury commissioners have picked the petit jurors and the grand jurors for this term of court. No big cases of any unusual importance are scheduled and most of the cases are for damages.

The grand jurors as selected by the commissioners follow: Henry G. Wilson, Rushville township; Harry Gosnell, Orange township; J. N. Northam, Jackson township; John K. Stiers, Rushville township; Jesse Siler, Ripley township and Samuel Colhee, Center township.

The petit jurors as designated by the jury commissioners are, John Hungerford, Orange township; Wilson T. Dobbins, Jr., Washington township; William Groves, Orange township; Frank Huddleson, Center township; Robert A. Innis, Rushville township; James N. Dearing, Walker township; Norman Apple, Orange; John Logan, Rushville township; Frank Simpson, Richland and Homer Powell, Rushville township.

The calendar has been arranged as follows:

Sept. 1—Calling dockets, Webb vs. reserve loan, Bennett vs. Bennett.
Sept. 2—State vs. Ellerman; Gruell vs. Guttman.
Sept. 3—State vs. Naden; Sulkey vs. Hines.
Sept. 4—State vs. B. Alsmann; State vs. Curry.
Sept. 5—State vs. Stevens; Schattner vs. Hall, executor.

BLOW AT MEDDLING IN EUROPE'S AFFAIRS

Foreign Relations Committee
Amends Treaty to Exclude Americans From Committees

HITCHCOCK SEES PRESIDENT

(By United Press.)

Washington, Aug. 26.—As a blow at American participation in European affairs, the senate foreign relations committee today amended the peace treaty to prevent American members being appointed to more than a score of commissions created to settle details of peace.

Today's action, though it constituted in effect but one amendment to the treaty, in fact involves 50 odd changes in the text.

The reparation commission was specifically excluded from the amendments. Senator Fall, New Mexico, author of the series of amendments adopted, pointed out that this commission is to deal with questions in which the United States is directly interested.

Senator Hitchcock, administration leader, who was summoned today to a White House conference by President Wilson, said he would "bet a steamboat against a rotten apple that the senate will knock the committee's Shantung amendment into a cocked hat."

COMMISSIONERS ANSWER CRITICS

Issue Statement Today Defending Their Action in Ordering New County Infirmary.

OLD BUILDING IS UNSAFE

Point to Report of Architect Saying it Would be Waste of Money to Remodel it

In reply to criticism of the action of the county board of commissioners in ordering the construction of a new county infirmary at a cost of \$95,520, the board today issued a statement defending its course.

The petition of the board for permission to issue bonds to pay for the construction of the building is now pending before the state board of tax commissioners.

The board points out that it would be a waste of money to remodel the old building, which is unsafe and unsanitary, and that the state board of charities and many county grand juries have recommended a new building in the following statement:

Inasmuch as there has been a great deal of comment recently regarding the proposed new Rush County Infirmary, some favorable and some unfavorable, and the latter having been given the greater publicity we, the Commissioners of Rush county desire to present the following for the consideration of the public and ask that the same relative amount of space and equal publicity be devoted thereto in your paper as has been given the criticisms of the proposed work:

In the first place, the present county infirmary has been for 20 years and is now a very unsanitary and unsafe place. The institution is well managed and no fault can be found with the efforts put forth by the superintendent to keep same in as good condition as possible, but no amount of effort can overcome the difficulties. The buildings are very old, poorly planned, have no separation, are dangerous from the standpoint of fire risk, contain no equipment, are unsanitary and therefore cannot be properly administered.

In addition to the foregoing there is no provision for the isolation of the contagious and dangerous diseases and no means of caring for these cases.

Secondly it has stated that the building should be remodeled and money saved thereby. This is best answered by saying that some four years ago this question was considered and an architect employed to report on the feasibility of same. His report showed that, and the same can be readily seen by any layman who is not versed in construction matters, it would be a waste of money to attempt to remodel and would involve a great outlay of money and resulting in still having an unsatisfactory plant.

The present buildings have been the subject of condemnation by all grand juries for the last twenty years and by the State Board of Charities as well as an excerpt of a recent report under date of April 17th, being submitted herewith and in support of the foregoing statements. This board is composed of men and women of the highest standing and who have made the care of the states dependents and all charities a life long study. The excerpt of the report follows:

"Summary. This is an old building. It was poorly planned in the first place. From time to time additions have been built increasing the difficulties in administration and sanitation. The brick walls are cracked and the brick decayed. The entire cornice is beyond repair and the roof is leaking in many places. The light and ventilation are ex-

creedingly poor. In winter the supply of natural gas is so poor that the gas lamps can not be used and kerosene lamps are necessary. These lamps and the use of stoves are dangerous and may result in a fire and loss of life. The plumbing and heating systems are so poor that in cold weather the water must be shut off thereby multiplying the problems of health and sanitation. Altogether, the building is so poorly planned, constructed and equipped that proper care of the inmates is not possible. A new modern building should be constructed. Since the county has no hospital it is recommended that a hospital department be built in connection with a new poor asylum."

The statement has been made that an operating and hospital section has been provided and elaborately equipped. We would refer the reader to the foregoing report as to the need of such a section and, regarding same, we would add that this division consists only of a small operating room, to serve minor operations on dirty cases which would not be welcome in the city, a bath room and convalescent room all directly over the dining room and under the same roof. The elaborate equipment for this division consists of a lavatory, bath tub, water closet and sink, these being provided in this section for isolation purposes.

Ever Get Bilious? Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous cathartics and lashing your bowels with strong, irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

Relief will come just as quickly and with it genuine, lasting benefit. There will be no griping, gnawing pains or doubling stomachache. Nature's Remedy (NR Tablets) work promptly and thoroughly, but the action is gentle, mild and soothing.

Relief comes through the action of Nature's Remedy on not only the liver, but on the whole digestive and eliminative system—the stomach, the bowels and even on the kidneys. Stored up accumulations of waste and body poisons that have been clogging the system are completely cleared out. The overworked stomach is strengthened and the interrupted work of digestion and assimilation is resumed. The inactive liver goes to work with new vigor, the bowels are unburdened, the headache leaves, that dull, "dopey" want-to-crawl-down-a-hole feeling disappears, energy,

"pop" and appetite return and you feel yourself entirely, completely relieved.

There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day—more than five million boxes sold every year.

If you've not already done so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight. If your constipation is stubborn or persistent, continue to take one each night for a week or so. Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day. After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember it is easier and cheaper to keep well than to get well. Just try it.

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Thots From a Collier's Weekly Editorial.

"Trade is recovering. The list of articles (Feed and Food are the big items) in demand at the port of New York is impressive. The ends of the world are beginning to buy. Stability has been assured for the great movements of materials. Difficulties remain, but they are largely difficulties due to hunger, to high prices; to nervous relaxation after the war. prices are not comparable to the low levels of building costs obtaining six or seven years ago any more than the cost of living can be compared to that period.

We then respectfully submit to the readers that our action was taken and the building proposed in the face of a very urgent need for the same; that the cost of the plant is consistent with the value received; that there are no indications whatsoever of lowering the building costs, but rather the opposite condition is predicted by all in a position to know, and lastly that Rush County, which performed its part so well in all war activities is certainly rich enough, generous enough and considerate enough to provide a safe, clean and comfortable place in which our unfortunates may claim the right to live decently in the days that remain to them.

Rehabilitation May Begin With Men Whose Disabilities Are Not Great

MUCH DELAY THUS AVOIDED

Washington, Aug. 26.—Since the amendment to the Vocational Rehabilitation Act was passed in July, compensability as a pre-requisite to vocational retraining has been eliminated in the case of disabled men unable to follow their old trade, and the Federal Board for Vocational Education has the power and the responsibility to determine the discharged soldier's right to the benefits of this law. This relieves the delay which formerly was unavoidable, in placing disabled men in courses of training.

Realizing Most From Crops.

Crops are big and prices are good and every farmer would like to know how to get the most out of his crop money. Juggling figures is a fascinating game anyhow. Even Mother Goose took a fling at it. You remember, "If all the seas were one sea, what a great sea that would be. You might cap this if you had happened to travel all one bright June day through Kansas wheat with, 'If all the wheat fields were one field, what a great field that would be!'"

Jacob Mohler, the secretary of Agriculture here in Kansas, likes to figure with the golden wheat crop of his state. He calculates that if Kansas grinds her 200,000,000 million bushels of wheat into flour and then makes one big baking, that she might invite all the world to breakfast and serve each person eight hot biscuits a piece. According to the latest figures, the secretary would have to cut that breakfast to six biscuits, but that is a big enough world breakfast to make Kansas swell with pride.

That is one way of figuring Kansas wheat. The farmers of the Sunflower State are figuring too. They always figure in thousands, whether it is bushels, acres or dollars—so many thousands for a new tractor, so many thousands for more land, and sometimes so many thousands to pay off the mortgage.

How many thousands of this year's crop money are being set aside for the education of the thousands of future farmers now scampering over wheat stubble or going down the cotton row? Let us figure awhile on turning wheat into education. There is no better investment today of farm profits: for the profitable farm of the future belongs to the farm engineer. The man trained to make machinery do his work will reap the profits and also secure the leisure that a good farmer deserves. Shorter hours and higher pay can be secured only through education of the highest type.

If the \$300,000,000 Kansas receives for her crop should be evenly divided it would mean nearly \$200 apiece for every man, woman and child in the state. But apportioning this to the Kansas babies, we can set aside one-half for expenses and still leave \$1500 for each Kansas child under five years of age. Investing this sum in September War Savings Stamps, it would yield an education fund of \$1785.71 by January, 1924. This amount reinvested at four per cent compound interest would give each youngster

The absence of noise is always noticeable in a gentleman.

Domestic silence ought to be taught in school along with domestic science.

No sight is sadder than that of a man wanting work and not being able to find it.

When Love comes in the front door, Reason beats it for the back yard and jumps the fence.

When the stage, the painters and fashion get through, everything a woman wears will be stripped off.

Hez Heck says: "It doesn't matter so much what you have in your pocket as what you have in your head."

What a wonderful government we could have if men would only be on the level when they get into office!

a \$2700 college fund by September, 1934.

Unfortunately, however, every Kansas baby hasn't a wheat farmer for a father. So let us get down to the wheat farmer and see what he can do for the education fund. Taking Pawnee County, the 718 farmers of this county according to one statistician, averaged \$15000 on their wheat crop. Even allowing for a considerable cut, this is enough money to pay crop expenses, to set aside enough money for the education of each child in the family and still leave money in the bank for living expenses.

There is no more powerful figure on the horizon today than the wheat, cotton or tobacco farmer. He can do much to guarantee the continued prosperity of America and the future of his own children if he will only invest a part of his crop money in the making of farm engineers out of the little ones now toddling across his floor or going after the cows or helping with the dishes. Where will he find an investment that will yield more on 1919 crop money?

Some want government ownership of public utilities, some prefer private ownership, and yet another class do not know what they want. And in business conditions do not become more settled soon we may reach the point where nobody will have anything.

Our irrepressible friend Carranza is somewhat peaved because the U. S. government has forbidden the shipment of arms and munitions across the border. But, then, we all know His Whiskership. He was born peaved, has lived a life of peavishness, and will peave mightily when the devil assigns him to his allotted sphere in the hereafter.

Some of our fudsome millionaires have been letting off steam in the newspapers lately about not having purchased any new shoes for the past two years. But that, we suspect, is only another form of profiteering.

In modern parlance a successful business man is one who gets the other fellow's money and hangs onto it.

18 MONTHS OLD CHILD DIES

Lucille Elliott Expires at Robert Long Hospital in Indianapolis

Lucille Elliott, 18-months-old daughter of Mr. and Mrs. Robert Elliott, 603 West First street, died this morning about four o'clock at the Robert Long Hospital in Indianapolis. Mrs. Elliott and child were taken about a week ago to the hospital for treatment, and the child probably nursed a poisonous illness from its mother. Mrs. Elliott is in a serious condition and may not live. The body of the child was brought here this afternoon, and burial will be Thursday afternoon in East Hill cemetery, with funeral services at the residence at two o'clock.

Amusements

5th Episode Thursday.

Elmo Lincoln in the 5th episode of "Elmo The Mighty", will be at the Mystic Thursday. The title of the episode will be "The Phantom Rescuer". There will also be a two-reel western thriller, "The Black Horse Bandit", in which Harry Harvey and Helen Gibson are starred. Lyons and Moran will appear on the same program in a comedy, "Waiting at the Church". Monroe Salisbury in a six reel special, "The Blinding Trail", is announced for Friday and "The Forfeit", featuring House Peters and Jane Miller, for Saturday.

Hart at the Princess

William S. Hart is at the Princess today in "Square Deal Sanderson" and the Bray Pictograph will also be shown. Norma Talmadge is coming tomorrow in "The Way of a Woman" and on Thursday and Friday Elsie Ferguson will be seen in "The Society Exile" and Fatty Arbuckle will also appear in "A Desert Hero."

To be fair above all—to give the other fellow a chance, no matter what his character—is a code that obtains in the West today as it did long ago. In William S. Hart's new Arterraft picture, "Square Deal Sanderson," it is seen how a pursuer shoots a horsethief in the back. This so angers the watcher that he is almost gratified when the dying culprit manages to revenge himself by shooting his assailant.

This new picture will be found as thrilling as any in which the western star has ever appeared. There is a lovely girl—Ann Little plays the part—who owns a ranch in New Mexico. She is beset by scoundrels who are trying to get her property. She is rescued by the hero "Square Deal Sanderson," played by Bill Hart, and of course they fall in love.

There is hard riding, fighting and gun play aplenty. There is romance and the breeziness of the West are in every foot of film. It is a picture to see and see again and remember because it is so graphic and without so wholesome. The supporting company is of the highest grade.

Richard Carle in "Sunshine."

Direct from a three months' run in Chicago, the Shubert Murat theatre will offer to its patrons Richard Carle in "Sunshine," a musical comedy, all state fair week, commencing next Monday (Labor Day) matinee; also matinees on Wednesday and Saturday. Alexander Johnstone's merry musical comedy, "Sunshine" has won deserved popularity, both for the music written by Mr. Johnstone, composer also of "Fiddlers Three" and many other musical successes, and libretto, arranged by William Carey Duncan, with "colloquialisms" by that unique comedian Richard Carle.

The scenes of the play are laid in Southern Spain. The plot of "Sunshine" has a real plot—tells of the adventures of an American motion picture scenario-writer, his wife, a former Winter Garden beauty, and an American life insurance agent, who meet in Spain and become entangled with Andalusian smugglers, matadors, dancers and charming senorites. During the evolving of the story, mirth-provoking situations in abundance occur, as well as several delightful love interests.

The company which will be seen in "Sunshine" is in all ways an exceptionally fine one. It is headed by Richard Carle, who is seen at his best as the American insurance man, Richard-Skinner. In support of Mr. Carle are such musical comedy favorites as Marjory Owen, Betty Booth, David Quixano, Leona Stater, Harry Kennet, John J. Ward, Milton Dawson, Philip McDermot and the Murdock Brothers, a trio of wonderful young dancers who set all Chicago agog by their skill and originality. Nearly every principal in the company is possessed of either remarkable vocal or dancing ability.

The music of "Sunshine" is exceptionally lively, some of the most popular songs being "Love is Like This Little Wheel of Mine," "Something Nice in Lingerie," "Home Again, Home Again," "I Like to Look Around a Little," "Treat 'Em Rough" and "The Land of Make-Believe."

Pigs Get Worms Very Young

The time to commence feeding Acme Worm Bouncer is from the time they are old enough to eat. Feed from birth to maturity. It will only take a few cents worth to do it, and as "an ounce of prevention is worth a pound of cure," it certainly pays to start the pig off right, and if you do so you can keep him right. Worms are persistent pests and they must be fought continuously. There is more money in keeping your pigs free of worms than to let them get worms and then expel them.

Big Five Chicago Packers Possess Majority of Cars Suitable For Shipment of Fresh Meat

TRADE COMMISSION REPORT

Recommends That Private Car Lines be Operated on Equal Terms to All Shippers

Washington, Aug. 26.—Ascribing to private car lines a position as one of the principal factors in the concentration of control of the American meat industry, and showing that the Big Five Chicago packers own more than 90 per cent of the equipment suitable for shipment of fresh beef and carcass meats, the Federal Trade Commission today made public a special "Private Car Line Report" to the President. It recommends as a remedy that all cars used for the transportation of meat animals and all refrigerator cars and equipment be operated on equal terms to all shippers.

"The most important types of private cars considered," says the Commission's letter of transmittal to the President, "are the brine tank refrigerator car equipped for the transportation of dressed meat carcasses, and the ventilator refrigerator car suitable for packing house products and for vegetables and fruits. The three principal classes of owners are the packers, the railroads, and private car companies, leasing their equipment to shippers and railroads.

The complete report will be ready for distribution within two weeks.

"The refrigerator car made practicable a more extensive and economical use of food products. For fruits and vegetables it encouraged the development of production in regions especially fitted thereby by soil, climate and season of growth. In the meat industry it facilitated the concentration of slaughter by making practicable the long-distance shipment of fresh meat, in place of the shipment of live cattle to the localities of consumption. It has also tended to the curtailment of the local slaughter of meat animals.

"The present country-wide system of distribution by the five big packers through their branch houses and peddler car routes is built around the principle of refrigeration and has grown up, historically, from their control of refrigerator car lines in conjunction with the various pools and combinations maintained almost continuously for more than 35 years.

"Extensive ownership of brine tank refrigerator cars by the five big packers is a principal factor in their control of the meat industry. On December 31, 1917, they owned 15,454 brine tank cars, adapted to the shipment of fresh beef and carcass meats, which is over 90 per cent of the total equipment of this type of car. Their ownership, until recently, of accessory facilities such as icing stations and platforms located advantageously in trunk line territory, strengthened their control over the industry.

"In turn, the volume of traffic of the five packers has enabled them to secure from the railroads advantages over competing shippers. Formerly in the shape of direct rebates, these advantages are now usually in expedited service to the big packer cars; in favorable mixing rules which include all their diversified products and even many articles not related to the packing industry; by allowances paid to some of the big packers by carriers for the performance of a part of the transportation service; by favorable arrangements and lease of stockyards by the railroads to some of the big packers; and by the sale to the railroads of bumping points manufactured by a subsidiary of one of the Big Five packers."

The New Aeolian Vocation Over All Other Phonographs?

In the first place, the new Vocation is the only Musical Instrument of the Phonograph Type that plays (successfully) all makes of records with the same Reproducer and with the same needle.

You have, no doubt, had people tell you that it was impossible for any Phonograph to play all makes of records with the same needle.

MAKE US PROVE THAT THE NEW VOCALION DOES IT

Make us prove to your entire satisfaction that the New Vocation—not only plays all records with the same needle, but that it plays them better than the machines for which they are made.

Make us prove that the New Vocation Automatic Stop — actually stops all makes and all sizes of records perfectly.

Come in and have us play your favorite record—no difference what make it may be—Vocalion, Columbia Victor, Pathe or Edison—we will play them for you on the New Vocation with the same reproducer and with the same needle (and with far better Tone Quality) eliminating sixty per cent of the surface noise so commonly heard on the ordinary phonograph.

We invite you to come and hear it—play it yourself—have us show you the New Vocation automatic stop—the one automatic stop that stops all makes of records perfectly. This stop is not simply a safety device, but a real automatic stop.

If you are contemplating the purchase of a musical instrument of the Phonograph type, don't fail to investigate this New Aeolian Vocation—The Phonograph of Richer Tone That You Can Play.

We have them at prices to suit every pocketbook and on our easy payment plan YOU can afford to own one.

16 COUNTIES ENTER STATE FAIR CONTEST

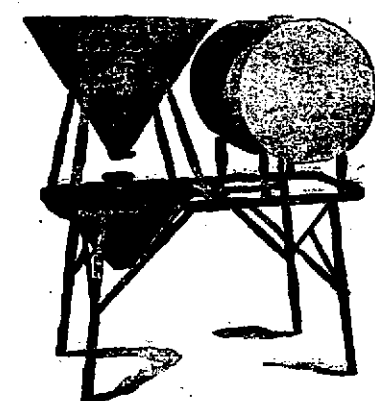

Home Demonstration Contests Will Be Staged by Boys' and Girls' Clubs of Counties

IN CHARGE OF MISS KING

Lafayette, Ind., Aug. 26.—Sixteen counties will be represented by teams in a home demonstration contest to be conducted at the State Fair by the Boys' and Girls' Club Division of the Agricultural Extension Department of Purdue University. Miss Grace King of the Purdue Club staff will be in charge of the contest.

The counties which are to send teams are White, Sullivan, Vigo, Union, Decatur, Whitley, Hendricks, Parke, Tipton, Morgan, Vanderburg, Bartholomew, Putnam, Madison, Montgomery and Fountain. Each team will be composed of three girls who are to be chosen by means of an elimination contest to be conducted in each of these counties previous to the State Fair. Each of the teams will give a demonstration at the fair in canning, sewing and baking. The judging of the work and the selecting of the winner is to be done by a committee of three, which will be announced later.

The demonstrations will be conducted each day of the fair in the Oliver Building. An appropriate banner will be presented to the winning team by the club department of Purdue.

TROOPS PUT OUT FIRE

New York, Aug. 26.—The transport Pretoria reported on arrival from Brest today that a fire started in her coal bunkers Tuesday and raged for thirty-six hours before it was extinguished by a volunteer force of soldiers. Members of the crew were unable to check the flames, and the captain ordered the coal shifted, the soldiers working in detachments of forty men at a time.

BLUE FRONT
115 West Second St.
"A Little Off of Main,
But It Pays to Walk"

The Ladies Aid society of the First Baptist church will meet in the church parlors tomorrow afternoon.

There will be a call meeting of the War Mothers club tonight at 7:30 o'clock at the home of Mrs. David Stoops in North Morgan street. All war mothers who are planning to go to the pitch-in dinner at the home of Mrs. Sam Newhouse Thursday are urged to be present.

Mr. and Mrs. E. R. Casady were host and hostess for a prettily appointed dinner party Sunday, honoring Mr. and Mrs. Lotus Gartin. Mr. and Mrs. Richard Fleeht, Mr. and Mrs. Will Bennett, Mr. and Mrs. Sam Casady of Shelbyville, Mrs. Sarah Casady, Thomas McDaniel and Julia Casady.

Miss Hulda Black, daughter of Mr. and Mrs. Charles Black, of this city, and Sgt. Fred McCarty, also of this city, were quietly married at the home of the bride's parents in West Second street, this afternoon at four o'clock. The Rev. C. S. Black performed the ceremony. Sergeant McCarty has recently been discharged from the army after nine months overseas. The young couple will reside in this city.

Mrs. Sam Newhouse, living east of the city, will be hostess for an all day affair Thursday when she will entertain the members of the War Mothers club and Industrial club with a pitch-in dinner. The members of the Industrial club who are planning to go are requested to meet at the home of Mrs. Laura Wolverton in North Main street Thursday morning at ten o'clock where conveyances will be provided to take them to the home of Mrs. Newhouse.

Ninety-one relatives and friends were present at the Darnell reunion held at the city park Sunday. A bountiful pitch-in dinner was served at noon and in the afternoon the hours were spent socially and with music. Twenty-one relatives were present from White county. Next year the reunion will be held in White county and the officers in charge will be president, V. C. Rogers, of Brookston, Ind., and secretary-treasurer, B. H. Knox of Chalmers, Ind.

Mr. and Mrs. Walter Maple entertained Sunday with a pitch-in

dinner at their home near New Salem, honoring Mrs. John Kramer and daughter Thelma, who will leave Friday for their home in Charles City, Ia., after an extended visit in this county with relatives. The guests were Mr. and Mrs. J. M. Maple and Mrs. Zadie Clark and children, all of Glenwood, Mr. and Mrs. Fred Maple and family of north of this city. Mr. and Mrs. Ernest Maple of Norristown and Harold Wagoner.

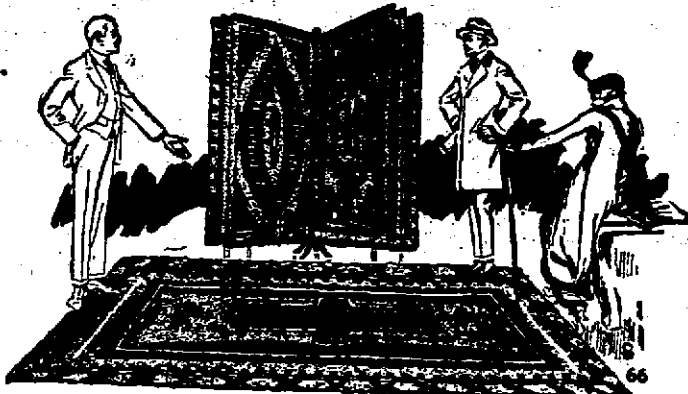

The citizens of New Salem and the immediate vicinity held a community gathering last night on the school house lawn, honoring Mr. and Mrs. Charles Bailey of Oregon, who are visiting relatives in this county. Both Mr. and Mrs. Bailey are former residents, and Mrs. Bailey was a New Salem girl, being Miss Cora Farrington before her marriage. It is estimated that about 60 or 70 people were in attendance, and delightful pitch-in supper was served. The evening was spent in a social way with occasional songs. Several people from Rushville and Circleville were there, as well as many of people from the New Salem vicinity.

A reunion of the Kennedy family was held at the city park Sunday, honoring Mee. William Kennedy, of Co. B., 6th Infantry, 5th division. A pitch-in dinner was served at noon. The guests were Mr. and Mrs. Bert Kennedy and children, Flossie Kennedy, Mr. and Mrs. Charles Kennedy and daughters, the Misses Helen, Marion and Charlene Kennedy, Lora, Roxie and Russel Kennedy, Mr. and Mrs. Clayton Spacey, Mr. and Mrs. Will Gray and family, Mr. and Mrs. Allen Wall, Mr. and Mrs. Fred Kennedy and sons, George Wall and family, Mr. and Mrs. Walter Snoddy and family, Miss Lulu Wright, Mr. and Mrs. Jess Wall, Mrs. Wilford Kennedy and son, Richard Dishner and family, Mr. and Mrs. Harry Kennedy, Mrs. Ethel Huffman and daughters, Gar Kennedy and daughter, Mr. and Mrs. Charles Hasty and family and Earl Pyle.

Mrs. Matilda Murray of near Nulldown celebrated her eighty-fourth birthday anniversary Sunday with a pitch-in dinner. The afternoon hours were spent socially and at a late hour refreshments of ice cream and watermelon were served. The guests included, Mrs. Joe Thompson, of Lima, Ohio; Mrs. Emma Davis, of North Vernon; Mrs. Emma White of Indianapolis; Mr. and Mrs. W. P. King and Mr. and Mrs. Lowell Norris and family, of near New Salem; Mr. and Mrs.

peal on the same grounds will be made to these employees to accept postponement of a settlement of their demands.

"It goes without saying," the president's statement said, "that if our efforts to bring the cost of living down should fail, it will be, of course, necessary to accept the higher costs as a permanent basis of adjustment, and railway wages should be adjusted along with the rest."

Recommendations to the president from Director General Hines as to the amount of increase to be given, made public with the president's statement, showed that pay increases already received by thousands of shopmen from July 1, 1915 to August 1, 1919, were in excess of the increase in the cost of living during that period, these increases being obtained by higher classification under standardization of employment.

Mr. Hines said the wages of railroad shopmen were not properly comparable with those paid for similar work in shipyards because the shipyard work was of a temporary nature and also because the workmen in the latter case were generally faced with higher living costs prevailing in congested districts while the railroad shopmen as a rule have the advantage of small or semi-rural communities.

Shoe Prices

WE FEEL that in justice to our patrons it is our duty to keep them informed regarding the condition of the shoe market, particularly at this, the most trying time in our twenty-five years of experience. Shoe prices are advancing by leaps and by bounds.

Fortunately we have a good supply of SHOES, purchased at less than today's wholesale prices. But when these shoes are replaced on our

shelves many will cost more than today's retail prices. Our advice to you is to BUY YOUR FALL AND WINTER SHOES EARLY.

Buy all you need, but no more. We do not intend to profiteer. We deplore present prices just as much as you do. They will go higher before they go lower.

So AGAIN we urge you to BUY YOUR ACTUAL REQUIREMENTS AS EARLY AS POSSIBLE.

Yours very truly,

CUT THE HIGH COST OF LIVING
By baking your own bread from
CLARK'S PURITY FLOUR

One barrel of 196 pounds will make 283 loaves of bread, which at 10c each would amount to \$28.30. CLARK'S PURITY FLOUR retails at \$13.60 per barrel, then the housewife who bakes her bread will save \$14.70 per barrel, less the seasoning and fuel for baking; hence a long step in the direction of reducing the high cost of living would be accomplished.

INDIGESTION Caused by Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food repelling, sour, gassy stomach. There are many ailments which, while they do not cause much distress in the stomach itself, are nevertheless, traceable to an acid stomach. Among these are nervousness, biliousness, dizziness of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year.

The right thing to do is to attack these ailments at their source—just rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.

One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pains in my bowels disappeared. EATONIC is just the remedy I needed."

We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise.

Your druggist has EATONIC. Get a big 50c box from him today. He will refund your money if you are not satisfied.

ASKS HOME LIFE FOR GERMAN WOMEN

Women Ought to be Taken Out of
Labor Market is the Belief of
Frau Von Bierke

SHOULD NOT BE IN CABINET

Believes Womankind Should be
Brought Back to Natural Des-
tiny of Motherhood

By JOHN GRAUDENZ
(U. P. Staff Correspondent.)

Berlin (By Mail)—"Women ought to be taken out of the labor market just as much as possible."

This is the opinion of Frau von Gierke of the German national party one of the women members of the national assembly, chosen after the last winter's revolution. In an interview she declared she believed women ought to take more and more part in internal politics, but decried any attempt to have them in high government places. She said that they ought to be in the home rather than the factory or the office; and that where circumstances positively will not permit them to have home life, then they ought to be trained for the professions.

"I don't believe women should be in cabinet positions," she said. "That would only make the cabinet feminine and weaker, and what is needed is strong manly forcefulness in positions such as the cabinet posts."

"However, in internal politics, it is different. There, woman acts as a balancing spirit, and takes a fine, wholesome interest in welfare work. Women's inclinations in politics are likely to be more positive than men's for women are generally either entirely conservative or entirely radical."

"As for woman's part in labor, I will say that I believe womankind should be brought back to its natural destiny of motherhood and education of children. It is extremely unfortunate that women have become more and more the competitors of men in the labor market, for labor amongst women is the enemy of family life. It is impossible to be a workingwoman and a mother at the same time."

"In my view, industrial conditions ought to be so readjusted that men will have better opportunities for marrying and for supporting families. Then it will be possible for more women to enter their natural sphere of family life. As for women unable to marry, more opportunities should be opened for their education for professional lines."

Frau von Gierke, as a conservative, does not believe in "equalizing everything," as she put it. She believes that the German educational system is adequate, but holds that the "Kultur" that comes of family life and training ought to be developed.

WATSON SUGGESTS SURVEY OF WOOD

Senator Introduces a Resolution
Which Would Investigate the Supply of Pulp Wood in U. S.

ASKS AN APPROPRIATION

Country Almost Dependent Upon
Foreign Countries, But There Are
Many Virgin Fields Here.

Washington, Aug. 26.—As a step toward conserving the decreasing supply of American pulp wood used in the manufacture of newsprint paper, Senator Watson, republican, Indiana, today introduced a resolution authorizing the secretary of agriculture to make a survey and preliminary investigation of the nations available. Pulp wood timber supply. The secretary also would be directed to make recommendations for the pulp wood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

Two-thirds of the newsprint paper used by American newspapers, Senator Watson said, in introducing the resolution, "is imported or is manufactured from wood or pulp imported from Canada. One-third is made in the United States from wood grown in the United States. The former proportion is steadily increasing; the latter is steadily decreasing."

"Nearly all of the American newsprint manufacturing is located in the northeastern states, half of it in New York," the senator continued, "but in the Pacific Northwest, Washington, Oregon and part of California, and the inland empire of northwestern Montana and northern Idaho are great forests that have no more than been touched by the few pulp mills in that section of the country."

The senator told the Senate that in Alaska are enormous areas of forests the annual growth of which would supply pulp for half of the newsprint paper used in the United States, but no pulp mills are there.

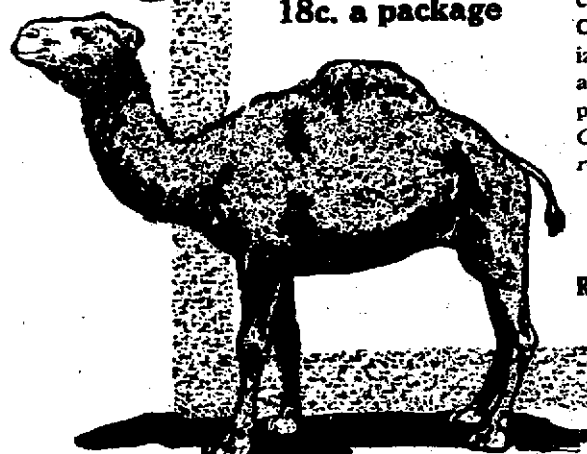

Senator Watson warned that American newspapers are being more and more dependent upon foreign sources for the raw material from which newsprint paper is made; the raw material is being exhausted in the section where the domestic industry is concentrated and mills are moving from this country to Canada.

At the time the United States contains forest resources in the Northwest and in Alaska that promise

ises abundant supply for many years, and indefinitely under proper conservation, if the industry can't be built up in these regions.

The importance of a permanent domestic newsprint industry was emphasized by Senator Watson who recommended that the forest service of the Department of Agriculture be encouraged in its work to prevent American newspapers from becoming totally dependent upon a foreign supply. To stimulate American production, he said, the following governmental policy should be carried out:

"An immediate and adequate governmental survey of American resources in this field.

"Immediate steps to bring about the practice of forestry and the conservation of forests in the pulp producing regions, to the end that the annual inroads upon the forests will be lessened and eventually will be no more than equal to the annual growth."

EPWORTH LEAGUERS TO JOIN IN A PICNIC

Will be Held at Connersville Sept. 1
and Will be Followed by Rural Pastors Conference

TO CONTINUE OVER NEXT DAY

A picnic for the Epworth Leaguers of the Connersville district of the Methodist church will be held at the Hawkins playground in Connersville Monday, September 1, according to an announcement received here from Dr. J. M. Walker of New Albany, district superintendent. Dr. A. F. Hughes, president of Evansville college, will speak at 2 p. m.

On the night of the day of the picnic and throughout the next day there will be a conference of rural pastors of the district at the Mt. Pleasant church. At this time the seven delegates from the district to the rural church institute at Evanston, Ill., will report and plans will be considered for the program next year.

Laymen are invited to attend the rural pastors' conference, but entertainment over night can not be provided for them.

WAR BASE DEMOBILIZED

Rouen, 5 Years British Post, Is Being Abandoned.

Rouen, France. (By Mail)—Rouen has been demobilized by the British, and the historic old Normandy capital, camouflaged for five years as "Army Post Office No. 2", and the British advanced base throughout the war, has been abandoned to the French. Only about 1,500 British troops, mostly Indians, remain to guard and supervise the removal of the last of the vast British army stores and German prisoners. Rouen for nearly five years has never had less than fifty thousand British troops quartered in the vicinity. It was the Record Office headquarters, or "Third Echelon", as it was known to the B. E. F. British army huts are being auctioned, and snapped up eagerly, and in a few weeks only the British cemetery will be left to remind the citizens of the great British war base.

PARIS—The famous Enghien Casino is threatened by the bill now before Parliament prohibiting gaming establishments within a radius of 60 miles of Paris.

Fruit Combinations Tasty When Canned

U S DEPARTMENT OF AGRICULTURE

When two or three fruits are combined for "putting up" the result is a product with an entirely different flavor which adds variety to the menu. Certain fruit flavors blend together better than do others. The following combinations are recommended by United States Department of Agriculture specialists.

Apples and quinces: white currants and gooseberries: apples and black currants: rhubarb and quinces: green gage plums and lemons: grapefruit and oranges: tangerines and oranges: grapefruit, red currants and raspberries: raspberries and cherries: plums and apricots: oranges and rhubarb with strawberry juice.

When small fruits are used in the preparation, they are left whole. Larger variety fruits are cut into small pieces. Raisins or nuts or sometimes both may be added to fruit combinations. They add a desirable flavor and increase the food value of the product. In preparation,

enamel or agateware vessels should be used.

To serve as a fruit cocktail, salad or dessert, the following fruit combinations are excellent: Green gage plums, pears and gooseberries; pineapples, kumquats and figs; peaches, pears and cherries. The jar is packed with the preferred combination, a sirup of desired proportion is added and the jar and its contents boiled for 30 minutes in hot-water bath canner.

The following combination are preserves which are used as condiments or as a spread for sandwiches. They have been tested and found desirable.

Plum Conserve

4 pounds of plums 2 oranges
3 pounds of sugar 1 pound raisins
1 pound shelled nuts.

Remove the seeds and chop the plums. Peel the oranges and slice thinly one-half of the peel. Mix the chopped plums, orange pulp, sliced orange peel, sugar and raisins, and cook altogether rapidly until

thick as jam. Add the nuts 5 minutes before removing from the fire. Pack hot into sterilized jars, seal, and boil (process) in hot-water bath for 10 to 15 minutes for half-pint jars and 30 minutes for pints.

Grape Conserve

3 pounds grapes. 2 large oranges
1 pound sugar 1/2 pound finely
1/2 pound finely ground ground nuts raisins.

Take sound, ripe grapes, weigh and pulp them. Separate the pulp from the skins and heat the pulp and juice until the pulp breaks down enough to liberate the seeds. Remove seeds by passing through a colander. Grind the skins, add one-half pint water for each 6 pounds of fresh fruit, and cook until quite tender. Mix skins and pulp together and add for every 3 pounds of fresh fruit 1 scant pound of sugar, one-half pound of finely ground raisins, the pulp of two oranges, and one-fifth of the ground peel of one orange. Cook the mixture approximately 1 hour in an oven or over a slow fire, until thick as jam. Then stir into the mixture 1/2 pound of ground pecan-nut meats. After allowing it to boil again for about 5 minutes, remove from the fire, pack hot into freshly sterilized half-pint jars and seal at once. Pint jars may be used if desired. Boil (process) the half-pint jars for 15 minutes in hot-water bath and the pint-size jars for 30 minutes.

Fig Conserve

2 pounds of fresh figs or 1 quart of plain canned figs: 1 orange; 1 1/2 pounds of sugar; 1/2 cup of pecans (shelled): 1/2 pound of raisins.

Cut all, except nuts, into small pieces and cook until thick and transparent (about one hour.) Add nuts five minutes before removing from stove. Pack and seal hot. Process as for plum conserve.

Medley Fruit Conserve

2 pounds peaches 1 pound apples
1 1/2 pounds quinces 3 lemons
1 1/2 pounds pears. Sugar.

Wash, peel, and core or stone the fruit. Pass through a food chopper and weigh. For each pound of fruit allow three-quarters pound of sugar. Put fruit and sugar in alternate layers in a bowl and let stand over night. Place the fruit, the pulp of the lemons, and one-half the rind of the lemons, sliced thin, into the preserving kettle, and boil until the mixture is thick as jam. One cup of scalded, chopped nuts may be added, if desired, 5 minutes before removing from the fire. Pack hot into hot sterilized jars and seal at once. Boil (process) half-pint jars in hot-water bath for 15 minutes and pint jars for 30 minutes.

BARN HIT BY LIGHTNING

The barn owned by Frank Niles at Charlottesville, was struck by lightning during the storm Sunday evening and was entirely destroyed with most of the contents, including seven head of shoats and a quantity of hay with some farming implements. The threshing outfit which was in the building, was saved.

Don't Burn Good Fuel in a Poor Stove. TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPINCO.

Ask your druggist—he sells and recommends Pepsinco.

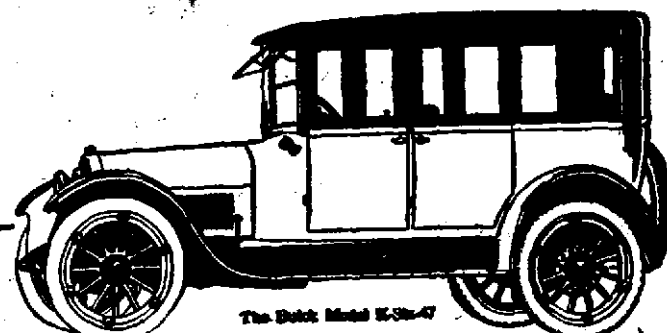

1920 Model K-47

Buick Touring Sedan

THE BUICK Model K-Six-47 body is of new design, low in appearance but with ample head room. Top, window casings and sashes are fully covered with metal, giving perfect uniformity in finish and durability. All doors are properly hinged and fitted with double latches. The front seat extends across the body and there is a new-design, tilting steering wheel. The low seats give riding comfort.

The interior is finished in handsome fabric, without bindings, with deep upholstery. Cold weather snugness or summer driving comfort are equally available by adjusting the three-piece windshield and windows.

The tonneau carpet matches the upholstery. The standard Buick instrument board furnishes every driving convenience and a dome light in the ceiling illuminates the interior. The cowl carries two handsome side lamps.

DEMOCRATS AID CAUSE WITH THE PHONOGRAPH

Thousands of Phonographs to be Mobilized to Educate Public Along Political Lines.

SPEECHES BY LEADING MEN.

Washington, Aug. 26.—Phonographs are now actively engaged in politics.

Announcement has been made by the Democratic national committee that thousands of phonographs in the United States are to be mobilized by the Committee, to educate the public along political lines and to help win votes to the democratic cause during the next presidential campaign.

It is proposed to have speeches, by leading members of the national administration and other distinguished democrats, reproduced on phonographic records and disseminated for use in political gatherings and in private homes. These "talks" will be upon important public issues and of five minutes duration.

One record containing a short speech by Chairman Homer S. Cummings, has already been distributed, and another, by Attorney General Palmer, it was stated, will be ready by September 1.

President Wilson, Vice-President Marshall, Secretary of War Baker, Secretary of the Navy Daniels, Champ Clark, William G. McAdoo, James Hamilton Lewis and William J. Bryan, are among others who are expected to address their countrymen through the medium of these records, the committee said.

NOT TO TEAR UP ROAD

Greenfield, Ind., Aug. 26.—C. M. Kirkpatrick, of this city, who has the contract to build the nine miles of the National road between Cumberland and this city, said today that there would be no interference with traffic on the road this fall or winter as there would be little done on the improvement until spring.

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease. And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled. Then gargle as directed and twice daily sniff or spray each nostril thoroughly. That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using. If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.
